Phonak Venture hearing aids

- Available in four performance levels (V90, V70, V50, V30).
- Come in newly designed housings and hardware made from high-tech material:
 - BTE (M, P, SP)
 - RIC (10, 312, 312T, 13)
 - Custom (nano, 10 NW O, 10 O, 10, 312, 13)
- Wireless and offer user control options via push button and selected models additionally with volume control.

State-of-the art chip technology

- Double the processing capacity of its predecessor allowing new and enhanced features such as adaptive StereoZoom.
- Up to 30% less battery consumption.

AutoSense OS

- Over 200 distinct settings in 1 unique operating system.
- Seamless adaptation to the wearer's listening situation with unrivalled accuracy and precision.
- Clinically proven to always select the best settings and maximize hearing performance.¹

New and enhanced automated programs, including:

Music

- Offers an expanded dynamic range, slow compression speed and more gain for a fuller and richer music experience.

Speech in Loud Noise

- Zooms in on a single voice in a diffuse noisy environment, improving speech intelligibility.
- The program's key feature, StereoZoom, now adapts to moving and asymmetric noise sources, improving speech intelligibility by up to 60%.²

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence.
Live without limit. Life is on.
