Phonak Charger Ease

The power of a rechargeable hearing aid.

Phonak rechargeable hearing aids utilise lithium-ion batteries for quick charging and a long lifespan.

Full day of hearing

24 hours battery life without audio/media streaming.

Fast charging technology

100% charge in just 3 hours to last full day of wearing.

Charge on the go

Accessories with integrated lithium-ion battery, keep your hearing aids charged even if you cannot access electricity.

Easy to use

No battery change. Charge while you sleep, nightly charging routine ensures a full charge when you wake up.

Safety for children and pets

No battery to find its way into the hands of children or pets.

Better for the environment

Save an average of 800 disposable batteries during the lifetime of a pair of hearing aids and help the environment.
