

# What do babies, kids, teens and their parents need in a hearing aid?

Babies, kids and teens with hearing loss need a solution that evolves with their needs and provides the latest technology, giving their parents peace of mind and allowing them to confidently navigate the journey to better hearing and overall well-being.

## Empower your youngest clients for success with a solution that offers:

Innovative hearing features with our most advanced feature set to date

So the evolving needs of babies, kids and teens are met

Connectivity to Roger™ and Bluetooth® enabled smart devices

So babies, kids and teens have improved access to speech in a variety of situations

Valuable insights and convenient adjustments via an app designed for kids

So teens and their parents feel supported through the hearing journey

Help your youngest clients connect with their world and improve their well-being with:

Technology backed by **paediatric research**

**Roger:** Improved access to speech inside and outside of the classroom

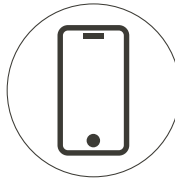

An ecosystem of **paediatric resources** for parents, children, teens and caregivers
