PHONAK
life is on

1 feel good.

Serenity Choice™ Swim protects your ears from water and contributes to your well-being.

Phonak Serenity Choice™ – The high-end hearing protection solution from the hearing care specialist.

Time in the water is great for your mind and health – but not always for your ears. Regular swimming or surfing can lead to infections or surfer's ear syndrome.

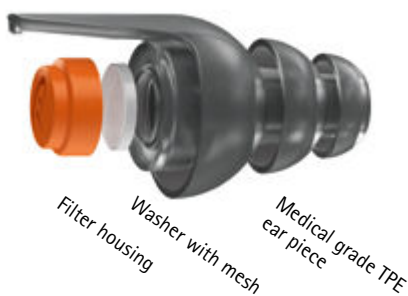

Enjoy your swim while protecting your hearing.

Not only water in the ear but also cold wind and water exposure can cause infections in your ear canal.

Frequent swimmers and surfers are at risk for swimmer's ear, a painful infection caused by water trapped in the ear canal. Swimmer's ear occurs when water creates a moist environment where bacteria thrive.

Prolonged exposure to cold water and wind can also lead to surfer's ear — abnormal bone growth that narrows the ear canal, trapping water and wax and increasing the risk of infection.

Serenity Choice™ Swim keeps water out while allowing sound in, reducing the risk of ear infections.

Available in three standard sizes for occasional swimmers, or as Serenity Choice™ Plus, custom-moulded for the best fit and long-term use.

life is on

Since 1947, Phonak is dedicated to preserving social, emotional and physical life quality by opening new acoustic worlds. We believe that well-hearing equates to well-being and thus is essential for living life to the fullest. Today we offer the broadest portfolio of innovative hearing solutions. And, together with our hearing care professionals, we keep on focusing on what matters most: improving speech understanding, changing people's lives and having a positive effect on society as a whole.
