

PHONAK

Clarity you hear.
Connection you feel.

EON

Phonak Innovation Leads the Next Breakthrough

Every moment of connection begins with clarity. True clarity isn't just about hearing better — it's about helping your clients feel more present, more human, more alive. Meet Phonak EON.

For you and your clients, meaningful interactions rely on technology that performs effortlessly when it matters most. Phonak EON delivers just that. Adaptive clarity, powered by AutoSense OS™ AI 8.0, automatically adapts to real-world environments, helping your clients stay in the moment. Phonak Made for All connectivity now includes Auracast™ broadcast audio and opens the world to unlimited connections and seamless listening. EON brings together premium performance and modern design in one integrated solution — keeping your clients connected to the sounds that matter.

Clarity you hear. Connection you feel.

Leading With AI to Transform Hearing Care

Advanced AI innovation drives adaptive clarity, delivering smarter and more precise hearing technology

Artificial intelligence is at the core of the latest hearing solutions from Phonak, driving significant advancements and enhanced listening and comfort.¹ EON offers technology that works for you. Phonak AI does the heavy lifting, so you don't have to.* By activating class-leading speech-in-loud noise features in real time, Phonak AI improves speech understanding and reduces listening effort* in real-world environments.

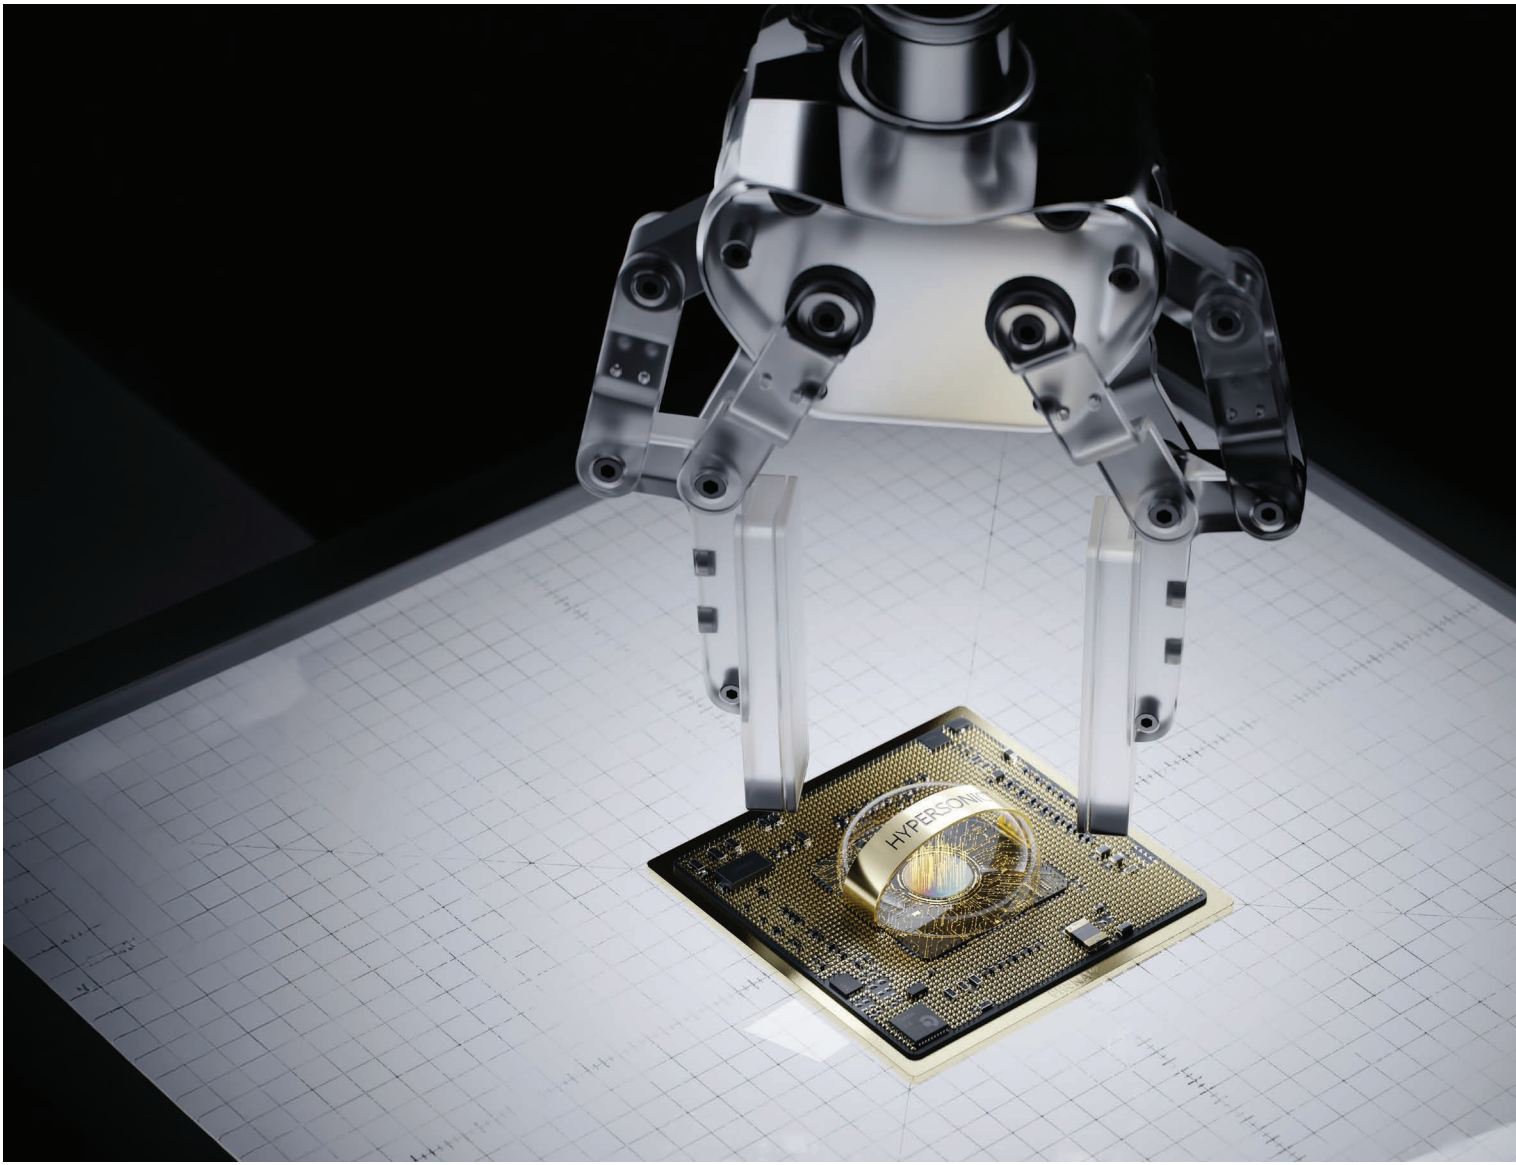

* Phonak AI activates features and functions that are proven to improve speech understanding and reduce listening effort, such as Speech Enhancer and Spheric Speech Clarity.^{2,3,4}

² Habicht, J. & Schuepbach-Wolf, M. (2024). Speech Enhancer reduces subjective listening effort of speech by up to 45%. Phonak Field Study News retrieved from www.phonak.com/evidence

³ Latzel, M, Heeren, J and Lesimple, C. (2024). Speech Enhancer reduces listening effort and fatigue. Phonak Field Study News retrieved from www.phonak.com/evidence

⁴ Wright, A, Kuehnel, V., Keller, M., Seitz-Paquette, K., Latzel, M. (2024). Spheric Speech Clarity applies DNN signal processing to significantly improve speech understanding from any direction and reduce the listening effort. Phonak Field Study News retrieved from <https://www.phonak.com/evidence>

Proprietary Phonak technology works seamlessly to separate speech from noise, adapts automatically and delivers clearer speech with less effort.*⁵

By leveraging AI capabilities across key Phonak Innovations — Spheric Speech Clarity™ 3.0, powered by the HYPERSONIC™ AI chip, and AutoSense OS AI 8.0 — we redefine hearing care with smarter, more responsive solutions that meet the evolving needs of your clients.

- **Spheric Speech Clarity 3.0:** Our third-generation, patented AI delivers real-time, all-around speech-from-noise separation to reduce listening effort and improve speech understanding*⁵
- **HYPERSONIC chip:** Our new proprietary AI chip enables intelligent processing that activates Spheric Speech Clarity. The new Audéo EON Sphere is now 37% more efficient**, allowing for a smaller and sleeker design compared to the previous Sphere generation
- **AutoSense OS AI 8.0:** Our most precise AI-based machine-learning operating system, trained on real-world sound samples to scan the listening environment up to 700 times per second. It instantly identifies the acoustic setting and automatically blends features like gain, directional microphones and noise reduction to optimise speech clarity and comfort

Smaller Than Ever. Powerful Beyond Belief.

* Relative performance change compared to StereoZoom 2.0, subjects with moderate-severe hearing loss

** While running SSC 3.0, compared to Phonak Infinio Ultra running SSC 2.0

⁵ Latzel, M et al. (2025) Spheric Speech Clarity improves speech understanding and reduces both listening effort and fatigue. Phonak Field Study News retrieved from <https://www.phonak.com/evidence>

Clarity That Speaks for Itself

Conversations instantly stand out from any direction with Spheric Speech Clarity 3.0.

Deliver class-leading, speech-in-noise performance and our most natural sound^{*6} with Phonak EON, designed to help your clients hear what matters, wherever life takes them.

The new Sphere generation has been engineered for greater power efficiency, while Spheric Speech Clarity 3.0 reduces distractions automatically, providing up to a 44% improvement in speech understanding^{**7} in busy, noisy places compared to traditional hearing aids.

In addition, Speech Enhancer delivers up to 45% less listening effort^{***8} and 21% less fatigue at the end of the day^{****9} – so your clients can embrace life to the fullest.

- AutoSense OS AI 8.0 now activates speech-in-loud noise features for longer and more consistent performance across diverse listening situations, providing a more natural listening experience¹⁰
- With WindBlock 2.0, unwanted wind noise is reduced by up to 50 dB⁺¹¹, improving speech clarity and delivering an overall more natural listening experience.¹² It protects the moment instead of turning the environment into a distraction
- At the same time, APD 4.0, our proprietary fitting formula, delivers higher fidelity to sounds in changing environments⁺⁺

Deliver clarity that truly performs with Phonak EON – intelligent innovation for better outcomes.

* WindBlock 2.0 versus previous generation, subjects with mild to moderately-severe hearing loss

** Relative performance change compared to StereoZoom 2.0, subjects with moderate-severe hearing loss

*** In quiet listening situation for adult hearing impaired subjects with moderate to severe hearing loss

**** Speech Enhancer on versus off, moderate to severe hearing loss

+ Compared to WindBlock 2.0 off

++ Compared to APD 3.0

Introducing the HYPERSONIC™ AI Chip: The Next Generation of Adaptive Clarity

* With hearing aids using SSC compared to hearing aids using the same settings without SSC

¹³ Ulloa Sanchez et al. (2026). Phonak Audéo EON Sphere outperforms four other hearing aids for clear speech in loud noise. Phonak Insight retrieved from <https://www.phonak.com/evidence>

¹⁴ Wright, A., Kuehnel, V., Keller, M., Seitz-Paquette, K., Latzel, M. (2024). Spheric Speech Clarity applies DNN signal processing to significantly improve speech understanding from any direction and reduce the listening effort. Phonak Field Study News retrieved from www.phonak.com/evidence

The newly designed, more power-efficient HYPERSONIC™ AI chip enables speech-from-noise separation in real time. It allows for a **smaller, sleeker design** in Phonak Audéo™ EON Sphere without compromising performance.

Spheric Speech Clarity 3.0: Measured in challenging listening conditions, Spheric Speech in Loud Noise achieves **up to a 10dB signal-to-noise ratio (SNR)** benefit.¹³

Every word matters. With Spheric Speech Clarity clients are **2x more likely to understand every word, from any direction.**^{*14}

37% more efficient* Sphere for all-day performance

Unlimited Connections. Seamless Listening.

Be More Connected Than Before

Phonak EON Made For All connectivity ensures seamless connection to your phone, broadcast or audio stream. This means your clients can effortlessly connect to their favorite devices without compatibility worries. Whether it's streaming music during a morning workout or joining a conference call at work, EON keeps them connected to the sounds that matter most.

- **Experience the front row:** Phonak EON hearing aids tune in to Auracast™ broadcast audio, giving clients direct access to audio in venues like museums, theaters, gyms and conference centers
- **Easy to join:** Use the myPhonak app to scan a QR code or connect via the Auracast™ assistant offered by compatible phones
- **Market-leading Auracast™ broadcast audio stability:** Audéo EON provides the most stable Auracast™ broadcast audio signal on the market compared to three other hearing aids offering Auracast™ solution*¹⁵

Auracast™ broadcast audio delivers announcements, presentations, tours and entertainment directly to the hearing aids.

Built on universal connectivity and powered by the ERA chip, EON delivers unmatched Bluetooth®, Auracast™ broadcast audio and Roger™ integration — unlocking the ERA chip's full potential for today's world and tomorrow's standards.

Phonak continues to set high standards for universal connectivity, empowering your clients with connectivity that keeps pace with their lives — and beyond.

* Stability measured at various head orientations relative to the Auracast™ transmitter.

Intuitive Design

Every Detail Is Designed With Intention

Phonak EON takes a holistic approach to design — inside and out — harmonising hardware, software and accessories to maximise everyday ease and clinical efficiency. It combines the performance clients need with a sleek, modern form made for all-day wear, plus simplified care and streamlined charging that fit real clinical workflows and client lifestyles.

Designed to deliver results:

- Small and effortless. Made to wear all day — Audéo EON Sphere is now 25% smaller and 20% lighter*, combining ultimate comfort and discretion with our best hearing performance
- Powered by Phonak AI - optimising the hearing aid settings in real time so clients can remain engaged and confident
- Phonak patented EasyGuard™ domes remove the struggle of wax filter changes and reduce service appointments by up to 38%¹⁶
- With up to 38-hour battery life, EON ensures clients can go about their day with confidence**

* Compared to previous generation

** The maximum battery runtime is determined by battery condition, hearing loss, environmental sound classification, streaming usage and activated feature set.

¹⁶ Based on Sonova internal data. Contact claims@sonova.com if you are interested in more information

The Phonak EON Portfolio

Phonak Audéo™ EON Sphere

Performance levels:
90, 70, 50

Smaller Than Ever. Powerful Beyond Belief.

Highlights:

- Now 25% smaller and 20% lighter*, combining ultimate comfort and discretion with our best hearing performance
- Spheric Speech Clarity 3.0: Enables clear speech from any direction with impressive 10 dB SNR improvement in complex group conversations¹⁷
- Increased accessibility for breakthrough de-noising: Spheric Speech Clarity is now available at the 50 performance level to address tougher speech-in-noise needs for more clients
- AutoSense OS AI 8.0 brings enhanced processing for a more nuanced activation of Spheric Speech Clarity 3.0 and delivers a more natural listening experience^{**18}
- WindBlock 2.0 reduces wind noise by up to 50 dB and improves signal-to-noise ratio (SNR) by up to 30 dB^{***19}
- Auracast™ broadcast audio enables receiving broadcasts up to 211 meters
- Phonak Made for All connectivity
- Compatible with Phonak patented EasyGuard domes for reduced maintenance
- With up to 38-hour battery life, Audéo Sphere ensures your clients can go about their day with confidence****

New in the myPhonak App

Simplifying Streaming, Support and Control

- **Simplified user experience:** cleaner, easier interface — so clients can adjust settings and manage their devices with fewer steps
- **myPhonak Junior 2.1:** Built specifically for adolescents and families. Whether it supports parents who are starting a hearing journey with their baby, or adolescent taking control of how they hear in complex listening environments, myPhonak Junior has something for everyone

Also available in the myPhonak app is Find My Hearing Aids feature, which helps clients easily locate their devices and reduce the chance of loss, providing peace of mind.

Auracast™ broadcast audio QR scanner: Your clients can join venue audio in seconds by scanning a QR code in the myPhonak app to experience direct sound for tours, announcements and performances in theaters, gyms and museums.

Maximise Hearing Potential With Roger On™

Roger On is an intelligent microphone for wireless transmission of speech directly to hearing aids. Acting like a third ear, it provides an extra boost in noisy environments and over distance.*²²

- One-click connection to Phonak hearing aids, thanks to RogerDirect™
- Significantly improves SNR and speech intelligibility in noise and over distance²²

For the most current updates on Roger On, visit Phonak.com/Roger.

* Compared to hearing aids alone

Target & PhonakPro Check

Secure Fittings and Proactive Client Device Care

Empower your practice with specialised tools tailored to different aspects of hearing care. Target focuses on precise fitting technology, while PhonakPro Check supports ongoing device management and client engagement.

Target 12.0

- A new fitting-authorisation step protects client fittings by ensuring only hearing care professionals can change fitting data
- Feedback test 2.1 provides an enhanced first-fit experience by automatically adding up to 6 dB of headroom when needed, helping you reach prescribed gain more reliably and support speech audibility from day one
- Supports the NAL-NL3 fitting formula
- Clearer reports and flexible opt in/opt out controls for patient data management

With Target 12.0, you have the tools to deliver precise, secure fittings that empower your clients from day one.

PhonakPro Check 1.2

- What it is: PhonakPro Check is an advanced diagnostic app that allows you to quickly assess hearing aid performance and guides next steps before sending a device for repair
- What you can check: Acoustic performance, battery state, receiver cable integrity (Receiver Cable Check), firmware version and general circuit health
- Clinic impact: Resolve issues faster and improve client satisfaction; internal data shows 30% fewer devices are sent for repair after pre-screening with PhonakPro Check
- Improved user experience: Improvements to the diagnostic workflow ensure a seamless experience detecting acoustic and battery problems. Flexible opt-in/opt-out controls for full data management control

Phonak, Your Strong Partner

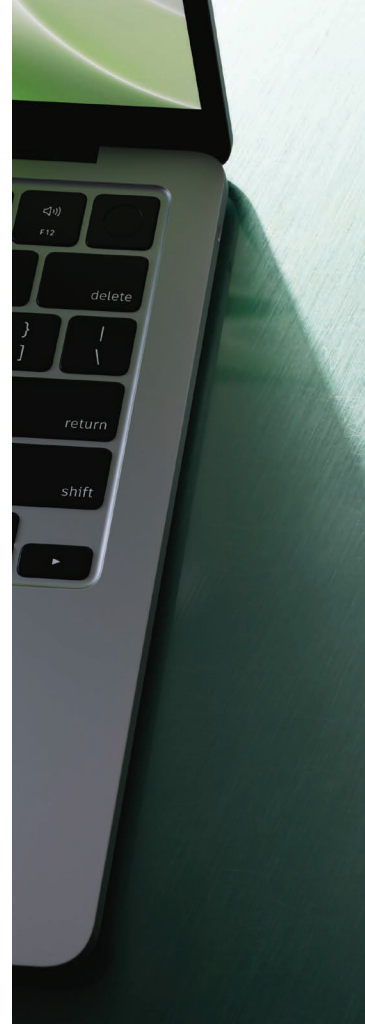

Grow your practice confidently using advanced technology paired with comprehensive business support focused on client-centered care.

Attract more clients, elevate clinical outcomes and streamline your workflow with innovative solutions and dedicated support designed to help your practice thrive.

With Phonak as your partner, you can:

- Spend more time on care: Streamlined workflows reduce clicks and cut unplanned follow-ups
- See more new clients and grow revenue: Less time on service visits frees capacity for new fittings and services
- Run a leaner operation and build mastery: Productivity tools optimise scheduling and patient management, while evidence-based training keeps your team at the top of their craft

Trusted by experts, backed by science, chosen by millions worldwide.

Clarity you hear.
Connection you feel.

At Phonak, we see technology as an enabler
of life, not the focus of it.

Since 1947, we have advanced hearing
technology to help people stay connected to
what matters most: the people, moments and
experiences that shape our lives.

Today, we bring together Swiss-engineered
performance, a seamless connected hearing
experience and purposeful design to create
hearing solutions built for where life happens.

So, you can stay confident, connected and
fully in it.

**Life is on.
Phonak is made for it.**
